

## Transactions of the Pathological Society of London Volume 56

By Pathological Society of London

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 Excerpt: .anastomoses of caeca were made out. The excretory system ends in an excretory pore which is subterminal and ventral. The nervous system has not been satisfactorily determined. The reproductive system consists of a lobular testicle or testicles, vesiculi seminales, vas deferens, and genital pore with its sphincter, opening centrally into the gynemophoric canal behind the posterior sucker. A distinctive feature of this schistosome is the absence of ciliated warts on the integument, the presence of which constitutes so marked a feature of the African worm. Minor anatomical differences are: (a) smaller size of the worm; (b) its longer vas deferens; (c) the characters of the testes. Male worm with a portion of female. A, Male worm, showing caeca. The female (Fig. 37, B) is almost cylindrical (diameter 0113 mm.), longer, more slender, and darker than the male. The cervical constriction is quite as marked as in...

### Reviews

*This is the finest book i have got study right up until now. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Keanu Johns**

*This is the finest book i have read until now. It is filled with wisdom and knowledge You can expect to like just how the author compose this ebook.*

-- **Tobin Lesch**
