

Systematic Review of Women Veterans Health Research 2004-2008

By U. S. Department of Veterans Affairs

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 150 pages. Dimensions: 11.0in. x 8.5in. x 0.3in. Women are playing an ever increasing role in the U. S. military, representing about 15% of active military personnel, 17% of reserve and National Guard forces, and 20% of new military recruits. Concurrently, women are one of the fastest growing groups of new users in the Department of Veterans Affairs (VA) Healthcare System, with particularly high rates of utilization among veterans of Operation Enduring Freedom (OEF) and Operation Iraqi Freedom (OIF). Of the more than 100,000 OEF/OIF women veterans, over 44% have enrolled in the VA system for health care. Thus, women veterans represent an integral part of the veteran community. The body of literature dedicated to women veterans health and health care issues has grown significantly since the publication of one previous systematic review focused on women veterans. To address the growing demand and potential needs of women veterans in the Department of Veterans Affairs (VA) Healthcare System, this project sought to assess the state of women veterans health research and stratify the literature into domains relevant for VA research and policy. Women's military experiences and...

Reviews

A top quality publication along with the font used was intriguing to read. I really could comprehend everything using this written ebook. Its been designed in a remarkably straightforward way and it is only after I finished reading through this publication by which basically altered me, modify the way I believe.

-- Catherine Larkin Sr.

Very useful to all of group of people. I actually have read through and so I am certain that I will planning to study yet again once again down the road. I am just very easily can get a satisfaction of looking at a created book.

-- Mark Bernier
