Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Carly felt compelled to write a book on Massage Therapy. Being new to the profession she wanted to expand on areas and subjects that she felt needed additional attention. She has written this book to be informational, not concentrating on the techniques used to perform massage, but rather on all of the in-between material that somehow can get over looked or really not thought about until well on your way in the field of massage therapy. She is confident that readers will find this book to be helpful and answer some of their questions while pursuing the massage therapy field. This book will provide insight into potential work sites, how to market and find a niche in the massage field, how to implement policies and procedures and above all provide a quick overview of what a typical day can be like in the life of a massage therapist. Carly was inspired by becoming a Certified Massage Therapist, that she was further inspired to record the information she learned in the form of this book. The ideas and examples presented are not only solely opinion based, but are subjects that should be considered when pursuing the career as a massage therapist.
