E. towards the ocean (Tonga ss Passage). Ibid. In the hope of gaining a more northerly and westerly communication with the sea, he did not take this passage, and soon found that the channel he was then pursuing also communicated with the ocean, making the land to the southward one or more islands (Sitklan and Kannaghunut Islands). He found that from the north-west point of this land, situate in latitude 54 45J, longitude 229 28 (this, it maybe remarked, was on Kannaghunut Island, and indicates the entrance of the channel), the Pacific was evidently visible. He had thus been still pursuing the westerly channel, keeping Sitklan and Kannaghunut Islands to the south, and Tongass Island to the north. This ended the exploration; and, on the following day, the 3rd August, he turned northward, and, after exploring Nakat Inlet, turned westward, reaching a...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
