

Participation and the Quality of Environmental Decision Making

By Coenen, F. / Huitema, D.

Book Condition: New. Publisher/Verlag: Springer Netherlands | It is clear that our society must become a more sustainable one. To that end, we must change both our production and our consumption patterns. Some argue that this implies the abolition of democratic processes, and thus of citizens' participation in environmental policy. Others argue the opposite: the only way to avoid impending environmental disaster is by engaging in common deliberation and contemplation. Is participation, then, a negative force or not? This volume is one of the first coordinated attempts to study the relationship between democratic, participatory forms of decision making and the quality of environmental decisions. The central question is how can the normatively desirable practice of participatory decision making be combined with an effective approach to environmental issues? Guided by a theoretical introduction by the editors, the 15 chapters deal with topics ranging from the scale of environmental problems, local agenda 21, infrastructural decisions, strategic planning, to environmental policy in developing countries. Three chapters are devoted to each of these broad themes. Each presents either a theoretical or an empirical argument about the central research question, shedding light on such issues as the measurement of decision quality, participation techniques, and the...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
