The extensive usage of Java language by programmers indicates that the Sun Microsystems have founded the right amalgam of sophistication and functionality. Java is actually derived from C++ language which increases the complexity of software with its features. However, the origin of Java is C++ and it uses many of its features by eliminating the drawback found in origin language. Java has eliminated direct memory access, pointers, multiple inheritance and pointers etc. Java was integrated with the support for World Wide Web and made it lucrative for the purpose of programming over network. One of the main benefits which is associated with Java language is object orientation. Primitive languages such as Pascal, C and Basic are referred as procedural languages. These languages however offer the programming facilities to devise the software but they do not provide them in...
